CAN YOU BEAT IT?

Some designing person or persons with a probable grouch has circulated the story that the R. & R. brand of clothing is cheap, undesirable merchandise. In fact, they have gone so far as to say that these makers only cater to the cheapest clothing merchants. This is absolutely false. There's an old and true saying that "a lie travels leagues, while the truth is getting its boots on." The makers of the R. & R. brand of clothing are not only the very oldest, but one of the most reliable manufacturers of clothing in Boston. Now, when any person or persons maliciously slanders the makers of the R. & R. brand of honest-made clothing, There's a Reason. You thinking men can guess the reason if you step into the
